PROFESSIONAL SUMMARY

Junior Full-Stack Mobile Developer and AI Software Engineering graduate (Semyung University, 2026) with hands-on experience leading end-to-end development of a bilingual Android application. Skilled in Java, Android Studio, Firebase, and REST API integration. Published researcher at two international academic conferences (Springer MITA 2025; IEIE 2025). Global Korea Scholarship (GKS) recipient selected by the Korean Ministry of Education. TOPIK Level 5 certified. Fluent in English and Korean; basic French. Passionate about building AI-driven tools that improve accessibility for global communities.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, Kotlin

Mobile & Web: Android (Java, MVVM, XML), Android Studio, ReactJS, Node.js, HTML, CSS, Tailwind CSS, Firebase

AI / ML: PyTorch, Scikit-learn, Deep Learning, NLP, Audio Processing, LLM Integration, RAG Systems, OpenAI API

Tools & Tech: Google Maps API, FastAPI, PostgreSQL, pgvector, MongoDB, MySQL, Jupyter Notebook, REST APIs, Git

Languages: English (Native), Korean (Fluent — TOPIK Level 5), French (Basic)

WORK EXPERIENCE

Housing Department Assistant

Jun 2019 – Dec 2019

Flour Mills of Nigeria plc | Nigeria

- Assisted in managing housing allocation and maintenance coordination for expatriate staff.
- Handled lease documentation and administrative correspondence in a fast-paced corporate environment.
- Developed strong organizational and communication skills working across multilingual teams.

PROJECTS

SMU Navigator — Bilingual Campus Navigation App

Mar 2025 – Present

Android Developer / Team Lead | Java, Android Studio, Firebase, Google Maps API, XML, MVVM

- Led a 3-member team to design, build, and deploy a bilingual (English/Korean) Android navigation app serving international and domestic students at Semyung University.
- Applied MVVM architecture for maintainable, scalable code structure.
- Integrated Google Maps API for real-time navigation and location-based campus facility discovery.
- Built Firebase authentication and a school facility database supporting multiple user roles.
- Published research at MITA 2025 International Conference (Springer); continuing development with SMU Navigator V2.

Publication: Springer — A Bilingual App for Campus Wayfinding and Local Cultural Immersion

HaruBuddy — RAG-based AI Information Assistant

Sep 2025 – Present

AI Research Project | Python, FastAPI, PostgreSQL, pgvector, LLMs, Jupyter Notebook

- Researching AI systems to improve real-world information accessibility for foreign residents in South Korea.
- Designed a bilingual AI assistant (voice + text) using LLM integration and vector-based retrieval (pgvector).
- Developed RESTful backend services with FastAPI and PostgreSQL; analyzed results using Jupyter Notebook.

- Presented at the IEIE 2025 Autumn Academic Conference; paper published on DBpia.

Publication: DBpia — HaruBuddy: Digital Scaffolding for a Global South Korea

VoiceSense — Speech Emotion & Intent Classification *Mar 2025 – Jun 2025*

Machine Learning Project | Python, PyTorch, Mel Spectrogram, RAVDESS/CREMA-D

- Built a deep learning CNN model for speech emotion classification using audio signal processing.
- Extracted audio features via Mel Spectrogram representations; applied data augmentation to improve model accuracy.
- Trained and evaluated on RAVDESS and CREMA-D benchmark datasets.

EDUCATION

Bachelor of Computer Science — Artificial Intelligence Software *Mar 2022 – Feb 2026*

Semyung University, Jecheon-si, South Korea

- Global Korea Scholarship (GKS) recipient — selected by the Korean Ministry of Education (NIIED); full scholarship covering tuition, living expenses, flights, and insurance.
- Capstone Design project: SMU Navigator — presented at MITA 2025 International Conference.

Korean Language Program *Mar 2021 – Feb 2022*

Busan University of Foreign Studies, South Korea

- Extensive Korean Classes for a year.

CERTIFICATIONS & AWARDS

TOPIK (Test of Proficiency in Korean) — Level 5 *Nov 2024 – Dec 2026*

National Institute for International Education (NIIED), South Korea

Official Korean language proficiency certification at advanced level (Level 5 of 6).

Global Korea Scholarship (GKS) — Full Government Scholarship *2021 - 2026*

Korean Ministry of Education / National Institute for International Education (NIIED)

Competitively selected as a GKS scholar for undergraduate study in South Korea; received full funding for a 4-year degree program.

RESEARCH, PUBLICATIONS & ACTIVITIES

MITA 2025 International Conference — Poster Presentation *July 2025*

SMU Navigator: A Bilingual Mobile Application Enhancing Campus Navigation and Local Integration

Published in MITA 2025 Conference Proceedings (Springer).

IEIE 2025 Autumn Conference — Academic Presentation *November 2025*

HaruBuddy: Digital Scaffolding for a Global South Korea

Presented at the 2025 IEIE Autumn Conference organized by the Korean Institute of Electronics Engineers (대한전자공학회).

JIMFF Volunteer — Jecheon International Music & Film Festival *September 2025*

- Supported international event operations; assisted overseas participants and visitors.
- Strengthened cross-cultural communication and global event management experience.

Korea-Africa Foundation Youth Supporters — 6th Cohort *Mar 2024 – Aug 2024*

- Contributed to cultural exchange initiatives between South Korea and Africa through content creation and outreach programs.
- Collaborated with diverse team members to promote bilateral cultural understanding.
